Improving Mental Health

For many individuals, finding mental health treatment is very difficult. Many don't have health insurance and for some English is not their first language. Catholic Charities provides bilingual mental health care services. Jasmine is an example of one of these clients. Because of the care and help Catholic Charities provides, Jasmine now has hope for a healthier more successful future. That also means a better life for her child and their family.

Restoring Life-Giving Relationships

When Sandra arrived at her first Parent Project class, her son, Kaden, had been getting into trouble, and the two had been fighting a lot at home. But by the end of the 10-week class, Sandra had become the Parent Project's biggest cheerleader. "I LOVED THIS CLASS," she said. Stories like this are a testament to the power of the program — and to the families doing the hard work to get their relationships back.

Increasing Overall Service Activities to Seniors by 28%

Catholic Charities' Foster Grandparents Program places older adult volunteers in schools and early childhood centers to serve children needing extra help. Our Senior Companions Program serves older adults in the community with hopes of the client remaining independent in their homes. Through our Caregiver Assistance Network, caregivers can learn how to take care of themselves while caring for a family member and gain the valuable resource information they need to care for their loved ones.
